

Business Strategy & IT Services

Practical guidance and best practices to move your business in the right direction.

At Accretive Solutions, our seasoned professionals have an average of 15 plus years of experience delivering excellence to some of the world's most successful and admired organizations. With our experience and comprehensive methodologies, we deliver more value than any other professional services firm.

What We Can Do For You

Business Analytics & Data Management Services

Transform your corporate data into useful business knowledge to enable better decision making and increase workforce and business partner collaboration, all while reducing your data gathering costs.

- **Business Intelligence & Reporting** Access the relevant data you know exists in your organization but has been out of reach.
- **Data Integration** Ensure high quality, reliable and timely data flow throughout your business processes.
- **Enterprise Portal** Enable a culture of data sharing and collaboration by allowing employees to access critical applications and data.

Business Systems Selection, Implementation & Optimization Services

As your business evolves, so must the systems you utilize to run and manage the business.

- **Business Systems Selection** Leverage our knowledge of industry leading and specialized solutions to enable process improvements and organizational change as part of the software selection. Our methodology facilitates managed competition amongst potential vendors to get you the right solution that meets your requirements at the best price and terms.
- **Business Systems Implementation** Our process based approach integrates your business requirements with the functional capabilities of the software to deliver solutions that deliver value. Our experience in managing and delivering change ensures end user adoption and value realization.

- **Business Systems Optimization** Our post implementation services maximize your existing investments to ensure value realization and tangible business results.

IT Architecture Services

Even with the strongest materials, a building without a well designed architecture faces the risk of critical failure. Are you building your organization on a solid foundation?

- **Systems Architecture Assessment & Implementation** Our processes and experience will help you link your business strategy to your IT strategy and will help you create a technology platform that will enable you to grow your business.
- **Application Portfolio Rationalization & Implementation** Reduce costs, mitigate risks and optimize your IT return on investment by leveraging our experience and methodologies in rationalizing your application portfolio.

IT Operations & Infrastructure Services

Turn your investment into technology into a competitive advantage by accentuating flexibility, simplicity, security and continuity.

- **Infrastructure Cost Recovery, Assessment & Implementation** Let us increase your systems performance and re-allocate resources to allow you to capitalize on growth opportunities.
- **Outsourcing Assessment & Implementation** We can reduce your capital expenditures while increasing the scalability of your systems, allowing you to free up your IT staff to focus on value added business imperatives.

Business Strategy & IT Services

- **Information Technology Infrastructure Library (ITIL) Assessment & Implementation** By leveraging industry best practices we can help you transform your IT organization into a team focused on service delivery for your core business.

IT Security Services

If you build IT, they will come. With our proven and effective security strategies, they leave empty handed.

- **Digital Forensics**
- **Vulnerability Assessments** If you don't know where your systems vulnerabilities are you won't be able to mitigate serious risks to your business.
- **Attack & Penetration Testing** It is not a question of whether or not you will be attacked, but rather when. Let us simulate a "real" attack to help you be prepared.
- **Information Security Program Assessment & Design** You want to mitigate data security risk but need advice or assurance that you are on the right path? We have the experience and methodologies to let you sleep soundly.
- **Remediation & Implementation Support** If your short on time or resources, utilize our experts to get the job done.

Performance Improvement Services

The best technologies and market strategies depend, ultimately on how well the business operates day-to-day. We have the expertise to transform your operation into a consistent high performer.

- **Business Process Improvement** Our experience and methodologies can enable innovation, create efficiencies and reduce the risk of failure.

- **Organization Change Management** If the only thing that's consistent is change, it helps to be good at it. Let us help you improve the adoption of your technology investment and truly drive business results.
- **Training Design & Development** Our knowledge of solutions and processes, along with our experience can help ensure your staff is trained to maximize your investment in processes and technology.

Program & Project Management Services

With highly experienced project managers and a range of pointed methodologies, we can help your organization consistently deliver results while reducing cost, bureaucracy and risk.

- **Program Management Office (PMO) Implementation & Operation** Manage and deliver multiple projects with reduced risk, appropriate oversight and in step with your business strategy.
- **Program & Project Health Check** Let help us leverage your strengths and remedy inconsistencies with our thorough assessment methodology, tailored to meet your business objectives.
- **Program & Project Process Improvement** We can help you implement 'just enough' process to achieve your objectives without adding unnecessary overhead.
- **Program & Project Management** Whether from a longer term consulting/partnering perspective, or simply filling a short term need, our team of Program and Project Managers can help your envisioned delivery become a reality.
